The aim of this policy is to ensure that Nursing Direct Healthcare Limited (hereinafter referred to as 'Nursing Direct') complies with its legal and ethical responsibilities as a care provider. This applies to all individuals within its service, including all staff including Agency Workers, service users and other relevant stakeholders. This policy promotes a positive sense of belonging and ensures equal treatment with respect, regardless of background, identity, abilities, lifestyle, or visible and invisible differences.

Nursing Direct values each person as a unique individual and recognises that some people may be more vulnerable to discrimination. No individual will receive less favourable treatment based on the nine protected characteristics outlined in the Equality Act 2010, including race or ethnicity, age, disability, sex, gender reassignment, sexual orientation, religion or belief, marriage and civil partnerships, and pregnancy and maternity. These characteristics will not affect the quality of care provided. However, we acknowledge the importance of adapting care to meet the specific needs of each individual and understand how diversity influences the type of care or service offered.

Nursing Direct adheres to Human Rights, Anti-Discriminatory, and Anti-Oppressive best practice guidelines. Nursing Direct is committed to removing barriers that hinder diversity and equal access, ensuring that inclusive practices are embedded throughout its operations. To achieve this, Nursing Direct draws insights from various laws and enactments, including the Human Rights Act 1998, the Convention on the Rights of Persons with Disabilities, the Mental Capacity Act 2005, and the Equality Act 2010. Additionally, Nursing Direct takes an intersectional approach to equality, ensuring that its practices support staff including Agency Workers, service users, and other stakeholders holistically.

Nursing Direct strictly prohibits inhuman or degrading treatment and establishes clear boundaries on when an individual's rights to liberty, privacy, or family life (whether a service user, stakeholder, or staff including Agency Worker) may be breached. By using human rights as the framework for this policy, the risk of cruelty, neglect, or thoughtless behaviour is significantly reduced, particularly for vulnerable individuals with disabilities who require substantial care, support, and reasonable adjustments.
